

Hair Often Ruined By Careless Washing

Keep should be used very carefully if you want to keep your hair looking its best. Most soaps and shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is a mild, natural coconut oil shampoo (which is pure and greenish), and is better than anything else you can use.

Once or two independent will cleanse the hair and scalp thoroughly. Simply massage the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dust, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and shiny, bright, lustrous, fluffy and easy to manage.

You can get this mild coconut oil shampoo at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.
